SHEDD, OREGON

TO OUR CUSTOMERS:

This is strictly a wholesale list and intended only for those engaged in buying and selling nursery products. We will appreciate being notified in case it gets in the hands of anyone not entitled to it.

Rates for quantity are as follows:

50 at 100 rate

500 at 1000 rate

These rates apply to all berry plants except Strawberries.

Grade Standard. Those adopted by the American Association of Nurserymen.

Packing. All boxing charged at cost, unless your order is over \$200.

Guarantee. We are ready at any time to replace free of charge berry plants that are proven to be untrue to name or to refund the original amount paid.

Claims or Complaints. We appreciate having reports of shipments as soon as they are received. If plants are unsatisfactory advise us immediately and we will do all in our power to give you an adjustment.

Our sales are made f.o.b. at Nursery and although we use all possible precaution in making shipments our responsibility ceases upon delivery of order to the carrier company.

Terms. 10% deposit will hold an order for future fall or spring delivery. 60 days net on all nursery stock. Interest at 6% may be charged on overdue accounts.

Filling of Order. We fill orders as they are received. All orders will be given prompt attention.

All prices in this list are subject to change without notice.

All prices are f.o.b. at Nursery.

RED RASPBERRIES

We will have a large supply of most varieties of Red Raspberries in both one- and two-year-old plants. Most of our plants will be certified this coming season. For larger quantities than listed write for quotations. Prices as follows, unless otherwise stated:

	Per 100	Per 1000	In quantities of 5000
1-year plants	\$4.50	\$40.00	\$38.00 per M
2-year plants	8.00	70.00	68.00 per M

LATHAM

Large, handsome berries of clear red, full of flavor and with a rich quality. A heavy producer and hardy everywhere. Fruit is firm and keeps well.

CUTHBERT

The most widely grown berry on the Pacific Coast. Prolific and delicious.

NEW WASHINGTON (New variety)

This fine new berry should be in every garden or commercial field. It is larger than Cuthbert, bright red and finer quality. This berry is replacing other varieties for canning in many sections of the nation and is very disease resistant.

NEWBERG

A very large sized berry, of excellent quality, and highly resistant to disease. Very productive, it ripens midway between the Latham and Chief. It is unsurpassed for home use or commercial planting.

TAYLOR

The fruit is very large with a long conical shape. It has bright red berries, and is a very good canning berry. Very productive.

LLOYD GEORGE

A popular red raspberry. Very large. A good berry for table or canning.

ST. REGIS (Everbearing)

This berry bears over a period of 4 months. Is a very hardy berry with large sweet fruit. For home use, St. Regis will produce plenty for fresh use throughout the summer and fall.

WILLAMETTE (Newest variety)per 100, \$6.50; per 1000, \$55.00

The largest of all Red Raspberries. It is a solid berry with a dark coloring, and is the finest for table use and canning. This is a two-season berry. It bears in the spring and again in the fall. It is being planted by many commercial berry growers throughout the country.

IMPROVED BLACK MUNGER (Black-Cap)

Berries are large, attractive, firm, and of the highest quality. Rich, sweet and the highest producers of all Black-Caps. The bush is very hardy, and a vigorous grower.

STRAWBERRIES

We should have a good supply of Certified Redheart, and some of the other varieties, if they pass the inspection this season. These Certified plants will be :

\$3.00 per 100

\$14.00 per 500

\$22.50 per 1000

IMPROVED MARSHALL. . . Per 100, \$2.75 ; per 500, \$10.00 ; per 1000, \$17.50

The West's outstanding home, garden and market berry. Produces an abundance of very large sweet berries of irregular shape. Soft deep crimson with dark red flesh. Subacid.

NARCISSUS. per 100, \$2.75 ; per 500, \$10.00 ; per 1000, \$17.50

A medium-sized berry of blunt, conic shape, very uniform and firm. Attractive bright crimson, with red flesh, mild and subacid, with excellent quality. Very early berry, and one of the best new berries that has been introduced. Foliage is very healthy.

RED-HEART. per 100, \$2.75 ; per 500, \$10.00 ; per 1000, \$17.50

Very large dark red berry with a solid firm skin. It is a glossy berry, very attractive. A midseason berry, and the most popular canning and shipping berry.

CORVALLIS. per 100, \$2.75 ; per 500, \$10.00 ; per 1000, \$17.50

One of the highest producing berries, will produce on heavy clay soils. This berry is large, irregular round to wedge shape. One of the best late dessert berries, and the best berry for freezing and locker use. The flavor does not freeze out as in so many other varieties.

BRIGHTMORE. per 100, \$3.50 ; per 500, \$15.00 ; per 1000, \$25.00

A new variety introduced at Oregon State College. Excellent for market and freezing. Resistant to Yellows disease, this berry has made as high a yield as 8 tons per acre. Berries have yellow seeds on round conic-shaped fruits.

EVERBEARING STRAWBERRIES

ROCKHILL No. 26 (Wazata)

per 100, \$7.50 ; per 500, \$35.00 ; per 1000, \$65.00

Berries are large irregular round conic to short wedge shape, medium firm, bright red berry with light red flesh. Subacid. Excellent quality, the foliage a very dark green. Plants are very healthy. Has excellent dessert quality, the best flavored of the Everbearing Strawberries. This berry will produce for 6 months of the year. No runners.

GEM. per 100, \$3.25 ; per 500, \$13.75 ; per 1000, \$22.50

These berries are large, excellent flavor, and are firm and bright. More uniform and attractive in shape and size than other varieties, and sell very well on the market. The Gem produces a large late summer and fall crop of berries.

BLACKBERRIES

BOYSENBERRY (1-year tips).....per 100, \$6.50; per 1000, \$60.00

These dark maroon-colored berries often measure from 2 to 3 inches in length. Boysenberries have a distinctly different flavor and when allowed to ripen on the vines is much sweeter. It is very juicy and sweet and will hang on the vines for days after it is ripe.

YOUNGBERRY (1-year tips).....per 100, \$6.50; per 1000, \$60.00

This fruit is very large and very juicy, with a rich blended flavor that is pleasing to everyone. The color is very dark red, or nearly black. The seeds are few in numbers and soft. The vines are vigorous.

**The following New Blackberry was recently introduced by the
Oregon State College:**

CASCADE.....per 100, \$8.00; per 1000, \$75.00

This berry is a cross between the ever-popular Loganberry and the wild trailing Blackberry, which is found in the Oregon mountains. There is no finer Blackberry grown than the Cascade. The berries are large, and they make more wonderful Jelly and Jam than any other berry could make. They are exceptionally good for pies. Every family should have 10 or more plants.

LOGANBERRY.....per 100, \$6.50; per 1000, \$60.00

These berries are attractive red in color, and are very large. They are slightly acid, and are highly prized by a great many people for jams and jellies.

NECTARBERRY.....per 100, \$12.50; per 1000, \$100.00

A new berry similar in appearance to Boysenberry, but darker in color. Sweeter and less acid. Really a superior berry. Grows like Boysenberries, vigorous and very productive.

THORNLESS VARIETIES

Per 100, \$15.00; per 1000, \$125.00

BOYSENBERRY

This thornless strain has retained all the good characteristics of its parent plant, including its rugged thrifty growth, and hardiness. You can handle these canes with your bare hands, and enjoy picking the large, attractive fruits.

YOUNGBERRY (Plant Patent No. 4)

This berry is superior to the parent plant of thorny type only to the extent that the hard punishing and annoying thorns are not present. Berries ripen a few days earlier.

LOGANBERRY (Plant Patent No. 82)

This new berry has proven far more productive, and its berries are larger than the old thorny type of Loganberry. A delightfully high flavored berry of dark red color. The canes are larger and entirely thornless.

EVERGREEN BLACKBERRY

This new berry is becoming very popular on the Pacific Coast. It is a very large, long berry which comes into production around the middle of August. Very productive and a good seller.

GOOSEBERRIES AND CURRANTS

1-year—No. 1.....per 100, \$12.50; per 1000, \$100.00

2-year—No. 1.....per 100, \$15.00; per 1000, \$125.00

OREGON CHAMPION GOOSEBERRIES

Berries medium round, smooth greenish white with thin transparent skin. Good quality, ripens early. The bush is vigorous and free from mildew.

PERFECTION CURRANTS

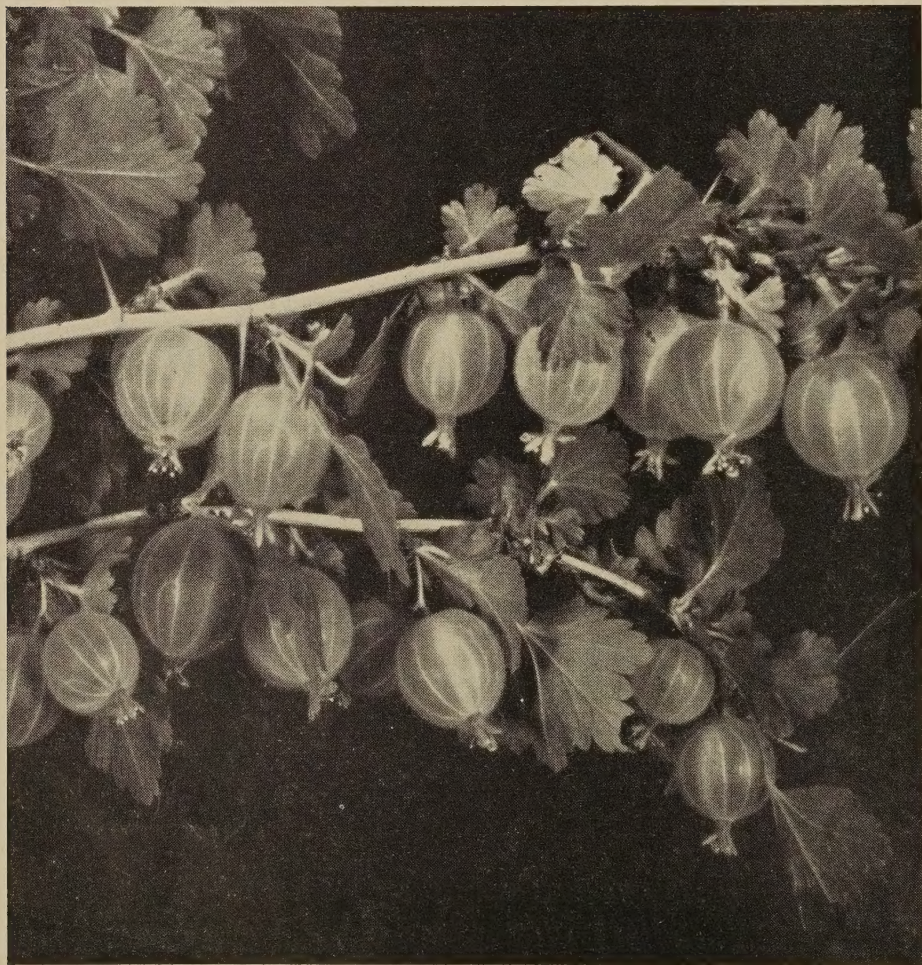

Bright red. It is one of the most productive currants of rich, mild, sub-acid flavor. Has lots of pulp and few seeds.

CHERRY CURRANTS

The largest of all red currants, with the berries sometimes more than one-half inch in diameter. Short bunches. The plant is very vigorous and productive.

FAY'S PROLIFIC CURRANTS

Large bunches of excellent quality red berries. Very productive.

OREGON CHAMPION GOOSEBERRIES
